REASONS FOR ALLOWANCE

1. The amendment filed 3/16/2007 has been entered. Claims 1 and 9 have been cancelled. Claims 2-8, 10-17 are pending in this Office action.

Allowable Subject Matter

2. Claims 2-8, and 10-17 are allowed.

3. The following is an examiner's statement of reasons for allowance: Haapoja et al fail to disclose wherein the step of estimating further comprises: transforming the I- and Q-signals into frequency domain using a discrete Fourier transform or a fast Fourier transform to provide signals $X(f)$ and $Y(f)$; estimating the frequency-dependent phase imbalance and the frequency-independent phase imbalance from the phase of the cross-spectrum $(X(f)Y^*(f))$, wherein $X(f)$ and $Y(f)$ denote the corresponding base band signals; wherein the step of estimating comprises estimating signal component-specific frequency-dependent phase imbalance factors when either the upper or the lower sideband signal component in the pair dominates in power over the another component; and estimating the frequency-dependent phase imbalance as half of a difference between the component-specific frequency-dependent phase imbalance factors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
